Blood Bank: Apheresis Resident Responsibilities

1. Maintain daily apheresis list.
2. Complete the “apheresis checklist” for each new patient.
3. Ensure that patient labs have been drawn, resulted, and reviewed, and that the patient has been examined prior to apheresis. Inform your TM attending when the procedure has begun so that the patient can be seen during apheresis.
4. Have the names and procedures for the following day prepared for sign-out at 4:30 PM.
5. When going off service, the schedule for the following Monday must be ready for Friday sign-out at 4:30 PM.
6. The apheresis list for the weekend must be ready for Friday sign-out at 4:30 PM.
7. Copath note should be entered within 24 hours of the procedure.

END OF DAY CHECKLIST

Do you?
[ ] have the information for patients whose procedures are not completed today?
[ ] have the information for tomorrow's/weekend patients?
[ ] have entered pending apheresis copath notes?
