Yuan Chang and Patrick Moore

Studies of enteric nervous system and cell biology

Department of Anatomy & Cell Biology
Michael D. Gershon, MD

Migrants from NYU:
Michael Shelanski, Ron Liem, Mary Beth Hatton, Lloyd Greene, Carol Mason, Fred Maxfield

Riccardo Dalla-Favera

Election of Dr. Michael Shelanski to American Association of Physicians

First demonstration of "imprinting" of a human gene by Dr. Benjamin Tycko

Election of Dr. Michael Shelanski to Institute of Medicine of National Academy of Sciences

Discovery of the PTEN tumor suppressor by Ramon Parsons

Election of Dr. Riccardo Dalla-Favera to American Association of Physicians

Role of acetylation in p53 regulation *Wei Gu

Discovery and therapeutic targeting of activated notch in T-cell leukemia by Adolfo Ferrando

Motor Neuron Center joins Pathology & Cell Biology

Election of Dr. Riccardo Dalla-Favera to Institute of Medicine of National Academy of Sciences

Annual number of tests exceeds 6 million

New fellowship program in Molecular Genetic Pathology

Election of Dr. Carol Mason to Institute of Medicine of National Academy of Sciences

Graduate program training grant renewed

Election of Dr. Carol Mason as President of Society for Neuroscience: 2013-2014

Election of Dr. Vivette D’Agati to American Association of Physicians

Professor Richard Axel wins Nobel Prize for studies on olfaction

Department of Anatomy & Cell Biology joins Pathology to form the Department of Pathology & Cell Biology
